## About College

Dr. Vithalrao Vikhe Patil Foundation's Medical College & Hospital has emerged as an excellent center in medical education, training, and research at the national level while extending compassionate healthcare services to the downtrodden at their doorsteps.

The extreme shortage of medical facilities inspired the Foundation to establish the college at Viladghat, Ahilyanagar in 2004. Under the visionary leadership of Late Dr. Balasaheb Vikhe Patil (Padmabhushan Awardee), the institute has achieved remarkable milestones in academics and community health services. The College offers an MBBS program with an intake of 200 students per year and postgraduate courses in 10 disciplines. Recognized by the Medical Council of India (now National Medical Commission) in 2009 and affiliated to MUHS Nashik, the 33-acre medical complex includes the 800+ bedded Dr. Vikhe Patil Memorial Hospital along with dedicated urban and rural health training centers.

## Vision

To achieve "Global Excellence" in experiential and technology-driven medical education, transformative research, patient centred clinical care, promotional and preventive health care services, through creative medical professionals, leading to national and global development.

## Mission

- To create new genera of doctors with quality medical knowledge, highest levels of skill and competence, committed to excellence, guided by professional ethics, moral and social values, ready to serve and lead the world for better tomorrow.

- To provide excellent and comprehensive medical education and hands-on training to undergraduate and postgraduate students for the advancement of medical knowledge, skills, competences and research, in order to make significant contributions to raise the health standards of all the citizens of our nation and across the globe.
- To extend and share the knowledge acquired and new knowledge generated for the development of the society in health management, through collaborative research, extension and outreach activities.
- To provide primary, secondary and tertiary health care services of global standards to the needy population, especially the rural and marginalized sections of the society.
- To promote the highest standards of quality and ethical values among the students and staff in patient care, medical education, training and research, leading to excellent performance in diverse professional and cultural settings of our country.
- To promote integrated sustainable development, environmental conservation, protection and preservation of culture, heritage, harmony and national integrity among all the stakeholders towards a humane society.
