

DVVPF/MCH/SS/2021/ 959

Date: 19/04/2021

To,
The Prof. & Head
Dept. of Pathology, Pharmacology, Microbiology, FMT, Community Medicine

Sub.: Conduct of Online 1st Term-End examination for Phase-II MBBS (CBME curriculum)

Sir/Madam,

I am directed to inform you that, the 1st Term-End examinations for Phase-II MBBS (CBME curriculum) should be conducted by online method (as per the guidelines given below) as per the attached schedule.

The next academic term for the students will commence from the next working day of the term-end examination for the given batch; the previous time table prepared for the theory lectures, practicals and clinical postings to be followed from the given date.

Guidelines to be followed:

1. Students to attend the exam from their places of residence.
2. The time-table for the examination to be communicated to the students by E-mail / SMS / Whatsapp message at the earliest.
3. The pattern of theory examination will be as per the university guidelines (Please visit <https://www.muhs.ac.in/showpdf.aspx?src1=https://intranet.muhs.ac.in/syllabus.aspx>) and the question paper is set accordingly.
4. As it is difficult to conduct bed-side/lab-based internal assessment practical examination and online viva (due to technical constraints) in present situation; so, the same pattern/methodology as per the university guidelines should be followed for practical examination. As far as possible, the questions related to practical session should be framed with intent to assess practical skills.
5. On the scheduled date of examination, the question paper (theory and practical) is sent to all students by E-mail / SMS / Whatsapp group at the time of

scheduled start of examination.

6. Students will write the answer sheets (theory and practical) and at the end students shall scan the answer sheets into a pdf file. Such scanned pdf file shall be sent to the respective E-mail / SMS / Whatsapp group.
7. Every department can use the 'sending question paper and receiving answer sheets mode' as per their convenience and same should be conveyed to the students. (If required, department can create a new e-mail address for this purpose).
8. Faculty in the respective department will assess the answer sheets (theory and practical) and prepare the result.
9. Students should submit the hard copy of (hand written and matching with the soft copy sent earlier) answer book of theory and practical separately to the concern department once they report the college after lock down period is over. Hence, it is requested to every department not to take print-out of the answer sheets sent by the students.
10. During this lockdown period, the students should remain stress free. This is simplified internal assessment examination. If Laptop, Computer, Tablet and Scanner are not available, then students can take photograph of their answer page/s on their mobile phone and send it to the concerned department for evaluation. Students should write their Roll Number, Subject, Page Number on every page of answer book and should write all the answers as per the sequence of the question paper and should submit serially. Answer to a new question should be written on fresh page.
11. This simplified procedure for conduction of Internal Assessment Examinations is a one-time measure for the current Term-end examinations in view of the prevailing COVID-19 pandemic.

Regards.
